CAREER SYNOPSIS

- Skilled in graphics, VR, and game development using Unity, Unreal Engine, and WebGPU, with additional experience in React.
- Experienced with full-stack development, AI/ML, and cloud-native systems through coursework and internships.
- Strong background in user-centered design, usability testing, and product prototyping (web, mobile, XR, physical products).
- Proven leadership across global teams and internships; adaptable to fast-paced, interdisciplinary environments.

EDUCATION

KAUST (King Abdullah University for Science and Technology)

Thuwal, KSA

Master's in Computer Science; GPA: 3.53/4.0

Aug 2023 - Jan 2025

University of Rochester

Rochester, NY, USA

Bachelor of Science in Computer Science | Minor in Digital Media Studies; GPA: 3.53/4.0

Aug 2019 - May 2023

PROFESSIONAL EXPERIENCE

Cloud Software and Platform Engineer Associate, Accenture, Riyadh, Saudi Arabia

July 2025 - Oct 2025

- Gaining hands-on experience in GCP and consulting skills through intensive training, certification prep, and client-aligned projects.
- Leading professional growth initiatives as Learning Chair, designing interactive class activities to build confidence and engagement.
- Led user research and design, presenting a winning youth-first travel experience solution at Accenture's Innovation Hub challenge.

VR Game Development Intern, Saudi Aramco, Dhahran, Saudi Arabia

June 2024 - Aug 2024

- Conceptualized and prototyped educational oil exploration game using Figma, completing ~30% of game development process.
- Developed VR project template with hand tracking to convert existing Oculus projects to Vive Focus 3 projects, in Unreal Engine.

Research Intern, Nano-visualization Research Group, KAUST, Thuwal, Saudi Arabia

Jan 2024 - May 2024

- Converting functionality of an existing OpenGL application to WebGPU, for automated camera animations in a molecular biology visualization system, enhancing documentary-style video creation.
- Navigated and contributed to complex GitHub project with submodules, modifying 88 files with 26,557 insertions & 10,701 deletions.

Teaching Assistant, University of Rochester

Aug 2021 - May 2023

- Video Game Development class (Spring 2023), supported students as they develop games in Unreal Engine.
- iOS Mobile App Development class (Fall 2021), helped students as they developed iOS apps in Swift.

Media Tech Intern, NBCUniversal, Los Angeles, CA

June 2022 - Aug 2022

- Created applications to automate intern alumni browsing and business verification, enhancing efficiency.
- Migrated and optimized an Excel sheet to Airtable for better data maintainability and analytics generation.

Tech and Product Intern, Millie Group, New York, NY

May 2021 - Aug 2021

- Finalized the features of Millie's internal website through user research and designed the UI/UX via Figma.
- Developed a PERN Stack (PostgreSQL, Express, React, NodeJS) app, and managed the database through PostgreSQL & AWS.

IBM Accelerate Software Apprenticeship, IBM, Virtual, USA

May 2021 - July 2021

- Completed intensive software apprenticeship, building full-stack apps while strengthening Agile collaboration and debugging skills.

PROJECTS

Phobigone

Aug 2022 - Dec 2022

- Designed and developed a VR game in Unity to help users overcome phobias using 3D cityscapes, and conducted usability testing.

BalanceBuddy

Jan 2022 - May 2022

- Conducted user research, Figma design, and built a React + MongoDB web app with Chrome extension for student task tracking.

EXTRACURRICULAR ACTIVITIES

ShenTech Entrepreneurship Bootcamp, InnoX Academy, Shenzhen, China.

Jan 2024

- Recognized as a top project; a shoe-cleaning device, designed by conducting user research, prototyping, and market analysis.

Student Volunteer, SIGGRAPH Asia 2022, Daegu, South Korea

Dec 2022

- Supported the conference's events like the Computer Animation Festival & Emerging Technologies exhibition.

Marketing & Design Team Lead, DandyHacks Hackathon 2022, Rochester, USA

Mar 2022 - Nov 2022

- Led a team of 4, and increased participation by 60% and project submissions by 277% via strategic design & outreach.

SKILLS

- Python, C, C++, C#, JavaScript, Java, Swift, React, Three.js, SQL, R, WGSL, WebGPU, OpenGL, Bash, GIT, Numpy, SciPy, sklearn, PyTorch
- Unreal Engine, Unity, Blender, Figma, Adobe Illustrator, Adobe Premiere Pro, Adobe Photoshop
- Adaptability, creativity, problem-solving, leadership
- Native, Arabic; Fluent, English
